

Mystery Virus Solved

wildsalmonpeople@npogroups.org; on behalf of; Alex Morton [gorbuscha@gmail.com]

Hello

Mystery solved - piscine reovirus causes disease in BC, despite efforts to tell us otherwise. This ongoing work will allow us to restore wild salmon, because we are learning what the fish need from us.

However, you will need to protect this work. This is critical!

Please go to my blog, at the bottom of the page are the emails of those who need to hear from you. You can bet they will be getting an earful and if they don't hear from us, these scientists will be buried by the bureaucracy.

http://alexandramorton.typepad.com/alexandra_morton/2017/02/mystery-solved-this-farm-salmon-disease-is-in-bc.html

Thank you all, I know I have been very quiet, but I am still on this 110%

alex
