Just thought the members might like to know I met Harry at the Campbell River in the Fly fishing only section---Harry had been there for 10 hours!!!! I arrived at 12:30 and left at 3:30 with a bad case of "Pink Arm" and Harry had a major case of cramping hands and pink-arm disease too after all that time on the water. Lots and lots of bright fish but only 3 other fly fisherman near us. Down stream below the wooden bridge in the retention area it was a complete gong show and looked like an olympic event was going overtime---can't believe all the cars and trucks parked on the road!!! We quite enjoyed our peace and quiet up-river. A great day!!!

Pink-arm Dennis
