

Notice Introduction to Geocaching

From: Bernie Heinrichs [bheinrichs@shaw.ca]

Received: Fri 2015-11-13 4:47pm

Ton Plynaar and Bernie Heinrichs are planning on a Geocaching trip into the Nanoose area when the weather cooperates. Unlike fly fishers, Geocachers are a bit choosy about weather conditions. It will probably be for a bit longer than half a day – more or less depending on consensus. The trails are in the Kicking Horse Pub area where we could go for lunch. Meet us there if you want to check it out without Geocaching. Fishing and Geocaching are remarkably similar – they both involve hunting. The difference is that with one you try to analyze a fish brain and the other one you try to analyze a human brain. To get more info, meeting time and place etc., please call Bernie at 250 668-6658 or at bheinrichs@shaw.ca .
