

Quinsam River Fishing Report October 7

From: Email Service [pealo@shaw.ca]

Received: October 11, 2015 6:47am

Hi Folks.. Several members fished the Quinsam on Wed. with a mixed bag of fish being caught. The river was a little low but holding quite a few fish including springs, fresh coho, coho jacks and some nice Cutties. A washed out bead matching the pink spawn seemed to work well and all fishers caught fish. A little more water should improve conditions this week.
