

SHROOMS

From: Bob Kissinger [basherbob@outlook.com]

Went shrooming today with Mike O. To one of our super secret spots just a little south of town. The bush was really damp and gloomy with fog settling in around us.

We tried two spots that had been productive in the past however today I only got two hedge hogs and two pine buttons. I also found a very large fully open pine but it was so old that it was mushy. Mike got one pine button and a couple of red juice milky caps.

Hedge hog mushrooms
