

# WATER MONITORING

From: Bob Kissinger [basherbob@outlook.com]

Yesterday, 8<sup>th</sup> November, marked the end of the 2016 water monitoring sessions.

**PHOTO 1: "A" TEAM members Ant, Ton, Kiara and Bob**

This year our club fielded two monitoring teams who completed five dry season (August) and 5 wet season ( Oct./ Nov.) sampling sessions at seven different sites on three different streams

from Lantzville to downtown Nanaimo.

**PHOTO 2: "A" TEAM member DAN**

Photos 1 and 2 show the "A" team consisting of Ant, Ton, Kiara, Bob, and Dan. Photo 3

**PHOTO 3: Bill and Bernie**

is part of the "B" team who consisted of Bill and Bernie, (as well as Bruce, Jim, and Jason who did not make it for the last day).

**PHOTO 4** (above) was taken yesterday on the upper McGarrigle creek. Normally there is only a little water coming over the center fall but with all the rain it was just gushing.

Cheers,  
basher
