

Awesome Day on the Cowichan, Feb 8

From: **William Croft** [wwilliamcroft@gmail.com]

Some more pictures from the recent Cowichan trip. Tony throws a nice D loop (and also shows some decent line management) on the Cowichan near the Big Bend.

My Spey setup at Spring pool showing a nice day in spite of compact ice/snow in places (the cleats were invaluable). Note the Gorman egg fly pattern, pink with UV glow white fleece! The hot fly according to Gord March.

Well it worked for Tony
