

Andrew's Chirono Emerger

- Hook:** Caddis #14 C49
Thread: Black #8/0
Tail: Natural mallard flank feather
Body: Ultra small, red wire, mylar tinsel gun metal-gold or to match the hatch
Hackle: Grizzly
Wing: Brown craft foam cut in strips

Tie in the order given above. The wing of the finished fly actually represents the body of the emerging chironomid. The body and tail of the fly is the shuck.
