Hi All,

Our UK member John Allen is here for three months so him and I went to the Campbell yesterday looking for Pinks. None at Haig-Brown. Some at Van Egan's house but they were all concentrated in one spot. Tried for while and got skunked. After lunch, we moved to above the Island Pool. Paul and a friend were there and doing quite well. John and I also did quite well. John on a pink version of a California Neil and me on a Pink Handlebar. Like all the other reports, the fish we caught were very big.

Cheers,

Norm
