

## Eve River July 30 Gerry's Report

**From:** Bob Kissinger [basherbob@outlook.com]

**Sent:** Sat2016-07-30@7:37am

Spoke with Gerry S on Friday. He reported that the fishing was still tough. Gerry also mentioned that the top end of the Eve mainline would be closed for the rebuilding of two small bridges. He added that you should still be able to access the "village" by going to the "rest stop" on the highway and at the back of the rest stop is a logging road that will rejoin the Eve mainline just before the bridge on the upper Eve.

As you are going in you may have notice the road on your right just before the bridge on the upper Eve. That's where the detour will rejoin the Eve main. Exactly where the rest stop is , is not exactly clear. If anyone has more info on the rest stop and its location, please send it to Bruce Murray [drbm@shaw.ca]

cheers  
Basher
