

Certificate of Appreciation

Bob Kissinger [basherbob@outlook.com]

As many of our members know for the past two years we have been putting a lot of time and effort into the Millstone, from the tide water to Ammonite falls in stream assessment to last October's wattle fence bank reclamation by Biggs road .

This past December our club was recognized by the city of Nanaimo for our "contributions to stewardship and restoration in Nanaimo parks and green spaces".

Well done fellows!
