

SPEY CASTING PRACTICE

Bruce Murray [drbm@shaw.ca]

Flow Conditions in the Englishman are looking good for another Spey Casting Session. As such, a Spey clinic (practice session) has been arranged for **10:30 AM** on Sunday **January 31st (tomorrow) while conditions last before the big melt....** at our usual location on the Englishman River. As you come into Parksville from Nanaimo, cross the orange bridge over the Englishman river and turn RIGHT at the Sydney Tire store. Continue straight to parking area located at the end of the road. We will meet there at 10:30AM come rain, snow or shine.....bring hot drinks and snacks, dress WARM with waders or boots and EYE PROTECTION for sure. When we are finished we normally go for lunch at A and W or somewhere else to our liking. Please bring extra rods, lines etc to try out if you want. Also, we can try out each other's rods, reels, lines, etc to see what we like. I personally picked up 4 lines (two Spey, two single handed 5 wt) at WS at 70% sale and am dying to try them out. In addition, Englishman Steelhead usually run this week and conditions are perfect for that so if you are wanting to steelhead fish instead of casting practice, we understand.

Cheers,

Bruce
